

## ACADEMIC PLAN 2016-17

### CLASS-II

*“Education is a social process. Education is growth. Education is not a preparation for life; Education is life itself.”*

John Dewey

#### **Schools play a major role in ensuring that children**

- socialize into a culture of self-reliance, collaboration, resource-fullness, and peace oriented values.
- engage in practices that promote personal, physical as well as mental and cognitive development, and well being
- are equipped with a superior future and develop attitude, skills and values to make rational decisions in relation to it.
- receive education that allows them to explore the wider world, to be empathetic and sensitive to other’s needs and environment.
- develop a positive perspective towards life.
- are provided the means and opportunities to enhance their creative expression and the capacity for aesthetic appreciation.

#### **Learning different subjects in school:**

- facilitates the learners to have an extensive exposure to all fields of life.
- till secondary level is essential and relevant as it broadens the vision and understanding of a child.

#### **Knowledge is interrelated and integrated as:**

- Languages are the basis of all subjects because they develop the competency to read, write and communicate.
- Science encourages responsible action towards environment and stimulates natural curiosity. It also teaches an understanding of natural phenomena and methods of enquiry to foster creative thought.
- Maths promotes logical and critical thinking. It nurtures analytical, quantitative and problem solving skills
- Social Science perspectives and knowledge are indispensable for the growth and progress of the present society base on the experiences of the past
- Visual and Performing Arts develop their aesthetic sensibility.
- Physical and health education contribute to the physical, social, emotional and mental well being of children.

*“Four Steps To Achievement: Plan Purposefully, Prepare Prayerfully. Proceed Positively. Pursue Persistently”*

William A. Ward

Academic planning is the process of preparing a blueprint in which the arrangement of learning opportunities for a particular grade of learners is created in advance. It has to be scientifically designed for exactness and particularity.

### **An academic plan ensures-**

- building goals for academic success
- a shared vision and understanding and a common language in the school community
- coordination and cohesiveness ensuring quality teaching, learning and assessment programs
- continuity of learning between domains across all grades
- balanced child initiated and teacher initiated activities
- raising awareness about what is being done and why
- building a trail of activities over time to review what has worked well and what has not

### **An academic plan is equally significant for parents and students as through academic plans -**

- the students and their families become aware of the critical information at each grade level related to the different content areas.
- helps them in providing tips and suggestions to the school for supporting and enriching students' academic experiences.
- It becomes convenient for the students to plan ahead their academic activities and develop a strong academic foundation in all the subjects.
- assist child to set long term and short goals and manage their time well
- parents can develop in their wards regular study habits to support academic success.

**Note: The format of an activity is subject to change in a bid to create foundation for better experiential learning platform.**

## Story- The Cunning Fox And The Clever Crane

Once there was a fox. He lived in a jungle. A crane was his best friend. They visited each other's home now and then. One day, the fox invited the crane to dinner. He put the soup in a flat dish. The crane had a long beak. He could not take the soup. The fox licked the dish. The crane felt very bad.

Now the crane wanted to take revenge. He invited the fox to dine with him. He served boiled rice in a jug. Its neck was narrow. The fox could eat nothing. The crane enjoyed the food very much. The fox felt sorry for his behavior.

Story: The Lion And The Mouse	
<p>A lion was sitting under the shade of a big tree and after some time fell asleep. Nearby that tree, there was a hole, in which there lived a mouse. When the lion was sleeping, the mouse came out of its hole and saw him asleep.</p> <p>It thought of waking up the lion by running over his body just for fun.</p> <p>Unfortunately, the lion caught it in his strong paw. The mouse begged for its life. Being generous by nature, the lion set it free. The mouse promised to help the lion if it ever got the chance. The lion laughed aloud at this. After all, how could a tiny mouse help the king of the jungle?</p> <p>A few days later, the mouse was passing by when he saw the same lion trapped in a hunter's net. Immediately, it set to work, gnawing at the ropes. Very soon the tiny mouse set the lion free.</p> <p>Moral: One good turn deserves another</p>

कहानी

तृतीय सत्र

टोपी वाले की सूझ बूझ

किसी गाँव में एक आदमी रहता था। वह टोपियाँ बेचकर अपना पेट भरता था। एक दिन वह टोपियों की गठरी लेकर दूसरे गाँव की ओर चल दिया। चलते-चलते वह थक गया और पेड़ के नीचे सो गया। तभी कुछ बंदर आये। उन्होंने गठरी में से टोपियाँ निकालकर पहन लीं और पेड़ पर चढ़ गए। नींद खुलने पर आदमी ने देखा कि गठरी खाली है। उसने पेड़ पर सभी बंदरों को टोपियाँ पहने देखा। तभी उसके मन में एक विचार आया। उसने अपनी टोपी उतार कर नीचे फेंक दी। सभी बंदरों ने भी उसकी नक़ल करते हुए अपनी अपनी टोपी उतार के नीचे फेंक दी। मौका पाकर टोपी वाले ने सभी टोपियाँ उठा लीं और गठरी में बांधकर चल दिया।  
सार – हमें सूझ बूझ से काम लेना चाहिए।
